

INDICE BIBLIOGRAFICO DE TESIS DE POSTGRADO SOBRE GEOLOGIA DE MEXICO

Universidades Americanas y del Canadá

Recopilado por ARMANDO E. ALATORRE 1983

INTRODUCCION

La presente lista de tesis de postgrado sobre Geología de México ha sido elaborada con el fin de incrementar el conocimiento sobre los trabajos inéditos que tratan de la geología de nuestro país. Esta recopilación debe considerarse como un complemento parcial a la lista de tesis realizada por Salvador Enciso de la Vega, la cual fue publicada por el Instituto de Geología de la Universidad Nacional Autónoma de México en el año de 1976 y de ninguna manera deberá considerarse como una repetición o sustitución de dicha publicación.

Pocas de las casi 400 tesis enlistadas en el presente trabajo son conocidas por la mayoría de los geocientíficos mexicanos. Aunque algunas de las tesis han sido patrocinadas total o parcialmente por entidades públicas y privadas de México, las copias entregadas por los autores a dichas entidades permanecen, la mayor parte de las veces, en archivos inaccesibles al público general. Un requisito indispensable que solicitan muchas universidades es que cualquier material presentado en una tesis sea publicable. Por tal motivo no se comprende que dichas tesis continúen ocultas.

Existen casos de tesis que han sido resumidas y publicadas en revistas científicas, sirva de ejemplo el trabajo de D'Anglejan-Chatillon (1965) sobre las fosforitas recientes de Baja California Sur que fue publicado en la revista *Marine Geology* en el año 1967 y en el boletín de la Sociedad Geológica Mexicana en el año 1963; sin embargo, esto constituye la excepción a la regla.

Además de investigación directa, las siguientes publicaciones fueron utilizadas para recopilar esta lista de tesis:

- a) *Bibliography and Index of Geology*, 1969-June 1982, Geological Society of America, Colorado, U.S.A.
- b) *Comprehensive Dissertation Index*, Volume 16 *Geography and Geology*, 1861-1972: Xerox University Microfilms, Ann Arbor, Michigan, U.S.A.
Suplementos para los años 1973-1979.

- c) *Dissertation Abstract International*, Section B, volumes 1-42: University Microfilms International, Ann Arbor, Michigan U.S.A.
- d) Enciso de la Vega, S., 1976, *Bibliografía Mexicana de Tesis en Geología*: Instituto de Geología, UNAM, 93 pp.
- e) Shafer, W.H. (editor), 1955-1980, *Master's Thesis in the Pure and Applied Sciences Accepted by Colleges and Universities of the United States and Canada*, volumes 1-25: Plenum Press, U.S.A.

Se han elaborado dos índices y un listado alfabético por autores. El primer índice es por Estados de la República enlistados en orden alfabético; al final de este índice se incluye una sección de Estado No Especificado donde se han enlistado títulos como "Seismic Stratigraphic Analysis of a Tertiary Basin Southeast Mexico". El segundo índice es temático donde las siguientes divisiones se han utilizado: Estratigrafía y Bioestratigrafía, Geocronología, Geofísica, Geología Estructural y Tectónica, Geología General, Geología Marina, Geología Petrolera, Geoquímica, Sensores Remotos, Vulcanología y Yacimientos Minerales. El uso combinado de estos dos índices facilitará la rápida localización del material de interés para el lector. La lista por autores se ha elaborado siguiendo un orden alfabético letra por letra de los apellidos de los autores seguido por el año de elaboración de la tesis, título de la misma, universidad respectiva, tipo de tesis, maestría o doctoral y número de páginas.

A lo largo del listado alfabético se han utilizado diversas abreviaturas, las cuales se detallan a continuación:

DAI	= Dissertation Abstracts international
M.A. Thesis	= Tesis de Maestría en Artes
M.E. Thesis	= Tesis de Maestría en Ingeniería
M.S. Thesis	= Tesis de Maestría en Ciencias
PbD Thesis	= Tesis de Doctorado en Filosofía
Univ,	= Universidad
v.	= Volumen
p.	= Página (s)

La mayoría de las tesis doctorales incluyen en el último renglón de la cita bibliográfica la abreviatura DAI seguido por un número de volumen y página. La publicación "Dissertation Abstracts International" es una serie mensual y anual donde aparecen resúmenes de tesis doctorales, buscando el apartado B de dicha publicación y con los números de volumen y página citados se podrá localizar un resumen de la tesis doctoral deseada. Esta publicación se puede consultar en la Biblioteca Benjamín Franklin de la Ciudad de México. Resúmenes de la mayoría de las tesis doctorales y algunas de maestría pueden también obtenerse a través del sistema computarizado GeoRef del American Geological Institute, para detalles sobre este sistema escribir a:

GeoRef
American Geological Institute
5205 Leesburg Pike
Falls Church, VA 22041
U.S.A.

Copias completas de las tesis de maestría y doctorado pueden obtenerse microfilmadas o en copias

directamente con las universidades y/o con la compañía.

University Microfilms International
300 North Zeeb Road
Ann Arbor, Michigan 48106
U.S.A.

La gran mayoría de las tesis aquí citadas pueden obtenerse también por medio del Servicio de Consulta a Bancos de Información (SECOBI) del Consejo Nacional de Ciencia y Tecnología (CONACyT) por un costo aproximado de \$5,500.00 M.N. (marzo 1983), incluyendo pago del servicio, la copia solicitada e impuestos.

Esta recopilación de tesis está complementada con material facilitado muy generosamente por el Ing. Héctor Lira. Importantes sugerencias que ampliaron el objetivo del trabajo fueron recibidas del Ing. Roberto L. Quintus Bosz. Asimismo, se agradece al Ing. Jesús Ojeda por revisar el material. De cualquier forma los errores que pudiese haber son la responsabilidad del recopilador. Seguramente se han cometido omisiones totalmente involuntarias que se espera pueden ser corregidas en el futuro.
